HCOMP 2013 to be Held in Pittsburgh!

The Second AAAI Conference on Human Computation and Crowdsourcing (HCOMP-2014) will be held November 2-4 in Pittsburgh, Pennsylvania, USA.

The HCOMP conference is cross-disciplinary, and invites submissions across the broad spectrum of crowdsourcing and human computation work. Human computation and crowdsourcing is unique in its direct engagement and reliance on both human-centered studies and traditional computer science. The HCOMP conference is thus aimed at promoting the scientific exchange of advances in human computation and crowdsourcing among researchers, engineers, and practitioners across a spectrum of disciplines who may otherwise not have the opportunity to hear from one another. The conference will include presentations of new research, works-in-progress, demo sessions, and invited talks.

Submissions to the main conference will be due on April 1, 2014. Workshop and tutorial proposals will be due on April 22, 2014.
